Placement scores (ACT, ACT COMPASS, Asset) are valid for four years in most associate degree and certificate programs.

Re-testing

You may re-test **once** prior to beginning any course work within the allotted time period required for your program of study. Re-testing may take place no earlier than one week after initial test. It is highly recommended you review the subject matter thoroughly before re-testing.

If you placed into a non-transferable/developmental course, you have the option to re-test after completion of that course with a "C" or better. If the scores reflect placement into a higher-level course, a student may choose to take the higher-level course or continue the current sequence.

ABE Students will be exempt from a fee when they re-take ACT COMPASS or Asset after completing work in required ABE courses. The ABE instructor's approval in writing is required before the retest can be scheduled.

Re-testing for health program eligibility

Re-testing in the appropriate ACT COMPASS, ACT or Asset test area (reading, writing or math) may be necessary for eligibility to enter certain health-related programs. Contact a health careers advisor for specific information regarding program requirements.

Incomplete testing

Incomplete ACT COMPASS tests must be completed within 3 months for scores to be considered valid.

Approval for Re-Testing

Meet with your academic advisor to review your scores and your academic plan. A \$10 re-test fee may apply.
