

2-DAY NOTICE OF PEST CONTROL TREATMENT

This written notification is in accordance with the Illinois Structural Pest Control Act 225 ILCS 235/10.3

Sec. 10.3. Notification. The written notification must be given at least 2 business days before application of the pesticide application and should identify the intended date of the application of the pesticide and the name and telephone contact number for the school or day care center personnel responsible for the pesticide application program. Prior written notice shall not be required if there is an imminent threat to health or property. If such a situation arises, the appropriate school or day care center personnel must sign a statement describing the circumstances that gave rise to the health threat and ensure that written notice is provided as soon as practicable. For purposes of this Section, pesticides subject to notification requirements shall not include (i) an antimicrobial agent, such as disinfectant, sanitizer, or deodorizer, or (ii) insecticide baits and rodenticide baits.

On 10-17-19 (date) a pest control treatment will be applied for the control of cockroaches (pest) at Proegler School (school name).

The material applied will be _____ Delta Dust _____ (trade name). EPA registration # 432-772

School Representative: [Signature] Date: 10-10-19
