Exhibit - Student Computer and Network Use Agreement

School District computer users are expected to act in a responsible, ethical, and legal manner, in accordance with district policy and the laws of the state and the United States. This Agreement does not attempt to state all required or proscribed behavior by users.

The computers and network are provided for the purpose of education or research and will be used in accordance with the district's stated educational goals only, and they are to be used by authorized individuals only. Individuals using these systems are subject to having all activities on these systems monitored by system or security personnel. Anyone using these systems expressly consents to such monitoring.

It is possible for all users of the Internet, including your child, to access information that is intended for adults. Although the district has taken reasonable steps to ensure that the Internet connection is used only for purposes consistent with the curriculum and that inappropriate sites as defined by the Children's Internet Protection Act are filtered, the district or school cannot entirely prevent the availability of inappropriate material elsewhere on the Internet.

It is possible that a determined user may make use of computer resources for inappropriate purposes. Deliberate misuse of the computer network or the Internet may result in disciplinary action as outlined in the Computer and Network Use Policy.
