2. State of the District

Dr. Walters introduced Traci Jordan, an incoming freshman at the high school, who gave a presentation on a software program, Toon Boom Harmony. Professionals use this same program. She would like to eventually go to school for animation and film. Traci shared background information and what she aspires to do in her future. Dr. Walters said her presentation is just one way to redesign education and the District must help Traci and other students like her to talk about how the District needs to redesign education to support economic development. Dr. Walters continued by stating that there should be no disconnect between what the school does, the community, and the family; we must all work together in order to support the students. Dr. Walters does not want Kankakee School District #111 and their students to just survive: she wants them to thrive. The District needs to help them thrive by finding their passion and we are starting as early as possible by having them think about what they are passionate about and what are their interests. The District's mantra is student engagement. Dr. Walters said that to increase student engagement and ownership of learning, we should give students opportunities to do meaningful work - work that makes a difference locally, nationally, and globally. She stated that we must think outside the box and move from a traditional instructional model to a digital-age learning model. Dr. Walters reviewed our vision, mission statement, and District goals.

Dr. Walters shared the 2017-18 school year and beyond, the successes, and the improvements needed. She introduced Dr. Kathleen O'Connor, Assistant Superintendent for Human Resources, to share personnel data. Mr. Robert Grossi, Assistant Superintendent for Business Services, reviewed financial data and the on-going construction project at the high school. Mrs. Felice Hybert, shared academic performance data along with the successes and the areas for improvement.

Dr. Walters concluded the presentation by sharing the following core values:

- Unity a group of stakeholders working together towards the same goal.
- Partnership staff, students, families and surrounding communities working together to provide the best opportunities for students.
- Innovation through honoring the diversity and uniqueness of students and by designing inclusive and equitable experiences, we are empowering students through opportunities to be progressive, creative, and innovative citizens of the world.

Mrs. Wells made several comments regarding the presentation. She stated that we must support public education and make sure that it is available at the highest level to every student who lives in our District.

Public Comments

 Motion carried. Dr. Walters introduced the new Director of Maintenance, Mr. James Kaplanes and the new freshman academy administrator at the high school, Adrienne LaCour. Old Business There was no old business discussed. Information and Proposals The following items were provided for information: 1. Kankakee School District 111 Golf Outing Mr. Grossi said that the District is having their third annual golf outing on July 16th at the Kankakee Country Club. He stated that the first two outings raised over \$20,000, which is used to supplement the athletic and academic programs at the high school. Mr. Grossi invited everyone to come out to golf and if you don't golf, come and enjoy the dinner. 2. May Suspension Hearings 3. Learning Anywhere, Anytime Dr. Walters clarified that the District has a waiver from the State Board of Education that we don't have to look exclusively at seat time to count for getting credit towards graduation with competency-based education. At the beginning of the school year, the District students will be out in the community either working on projects, supporting our younger students, or working on their 1:1 technology. The District will have some teachers who will hold classes available at the high school. Learning anywhere, anytime, is the concept that learning doesn't have to happen only within the four walls of a classroom, but that learning can take place anywhere across the world. We want to recognize that learning can take place anywhere across the world. We want to recognize that learning can take place anywhere across the world.
